

Artwork

Arnaud Laly

Arnaud Laly is a French artist & designer born in 1991 in Ploërmel, a small town in Brittany (France).

He studied Applied Arts in Rennes, specializing in graphic design.

He finished his studies by studying architecture and product design in order to have a 360° vision.

The young man naturally moved to Paris and became an Artistic Director of a large global design agency. After several years working in this agency where architecture and graphic design are mixed, Arnaud launched in 2019 as a solo artist to focus 100% on his artistic project.

Using the rigor of design, he builds his creations via a triptych:

line - geometry - flat colors.

He likes to represent faces, staring games or abstract compositions. Architecture being part of his influences, Arnaud aspires to the construction of architectural forms within his visuals. Doors, vaults or even stairs appear.
