

## The Trusted Marketplace for NFT's of the Next Generation

### First things first... know what you wish to achieve.

#### Things to think about when issuing a Smart Contract:

A smart contract is the code which automatically activates a process once the NFT is sold:

- Royalty payments
- Commission, Escrow transaction, Mint and Gas Fee payments
- Valuation
- Type of sale
- Currency / Blockchain

### WISeArt Standard Contract List

#### Initial transaction

- Mandatory Chain Contracts on CasperLab, Polygon or Ethereum
- Unbreakable link to physical object – NFT must always be sold as package with both physical assets; if relevant.
